ELY CENTENNIAL IS TALK OF DISTRICT

Vigorous Youngster Has Limelight in Big Copper Camp.

PROSPECTS GENERALLY CONSIDERED BRIGHT

Campaign of Development Adding Steadily to Extensive Ore Reserves.

E. W. Hulse, well-known broker and mining man of Ely. Nev., arrived in this city Thursday evening and will remain until Sunday attending to various bust-ness matters with which he is concerned

Mr Hulse states that the Robinson mining district is daily adding to its wonderful ore resources and possibilities developments of the past few weeks in some of the newer properties especially having been particularly interesting and encouraging. Following the temporary full in activities at the big Nevada Consolidated property, on account of the extreme cold weather which prevalled in the district for several weeks, business was somewhat retarded, the monthly payrolls having been reduced to a considerable extent, but conditions are again assuming a normal aspect and the return of prosperity is being welcomed all around.

Among the smaller properties from which especially good reports have come from time to time in the past two months, the Ely Centennial, in which Samuel Newhouse, W. V. Rice and other Sait Lake mining men are interested to some extent, has held a prominent place, and Mr. Hulse gives it as his opinion that this prospect is really the one "best bet" in the district at the present time. onderful ore resources and possibili-

New Shaft in Ore.

New Shaft in Ore.

Following the discovery of some fifteen feet of high-grade copper ore in a drift from the 55-foot point in the first shaft sent down, another shaft was started on the eastern end of the ground and in this also splendid ore has been opened up. Mr. Hulse states, at a depth of only seven feet. A vein six feet in width has been cut, and though it is not all ore as yet, assays of samples taken from the formation show a trace in gold. It ounces silver, 4.08 per cent copper and small values in lead. The company is now carrying on operations at three different points on the holdings, and in all of them conditions which speak well for the future of the property have

all of them conditions which speak well for the future of the property have been made.

Ely Consolidated is also opening up in a manner highly satisfactory to the management and all concerned, and though Mr. Hulse is of the opinion that the Boston Ely new finds are not in the nature of important "strikes," the indications are flattering and work is nearing a point around the water level where real valuable ore deposits are looked for. Ely Calumet has encountered ore, as already reported, as a result of the work recently started, and all development, in fact, is meeting with very satisfactory results.

I DIDDINED DI PRICKING PIMPLE

With a Pin-Inflammation Set In and Itching, Pain and Swelling Followed - Unable to Rest Day or Night-Suffered Six Months-Relieved in a Day and Wholly

CURED BY CUTICURA ON SISTER'S ADVICE

"Several years ago I had a little pimple come between my ankle and knee. I opened it with a pin which caused it to inflame. In a short time my limb was so poisoned and swollen I could scarcely use it. I suffered intense pain, being unable to rest day or night. I tried every remedy recommended, consulted several specialists but grew worse all the time, finding no relief in anything.

"My sister recommended the Cuticura Remedies. I began using the Cuticura Remedies. I began using the Cuticura Remedies according to directions and I was so much relieved that I slept some the first night. The itching, burning and swelling in my limb gradually decreased and the sore began to heal, After six months suffering such as I had endured, the relief was wonderful. I continued the treatment several weeks and a permanent recovery was the result. I shall ever recommend the Cuticura Remedies to any one suffering from blood and skin diseases. Mrs. D. M. May, R. F. D. 5, Goldsboro, N. C., Oct. 25, '09."

SOFT WHITE HANDS In a Night by the Use of Cuticura Soap and Ointment.

These pure, sweet and gentle emollients preserve the hands, prevent redness, roughness and chapping, and impart in a single
night that velvety
softness and white-

ness so much desired by women. For those whose occupations tend to injure the hands or

injure the hands or who suffer from dry, fissured, it ching, feverish palms and shapeless nails, with painful finger-ends, Cuticura Soap and Cuticura Ointment are simply wonderful.

Cuticura Soap (25c.), Ointment (50c.), are sold throughout the world. Fotter Drug & Chem Corp. Sole Props., 135 Columbus Ave., Boston are Mailed Free, Cuticura Book on the Treatment and Cure of Skin and Scalp Diseases.

FORENOON SALES. Colorado, 900 at 81c. 100 at 81c, seller Columbus, 500 at 89c; 100 at 88c; 200

PRODUCING STEADILY

Promising Shape, According to Manager.

The old favorites, Sioux Con., Colorado. Iron Blossom and Columbus, with New York Bonanza a close second, all held up well, though the trading was not heavy in any of the securities. The general alifecting up of the castern markets, together with the fact that there are more legillmate buyers coming into the local situation, has tended to improve conditions. With summer coming on and the encouraging prospects for the early resumption of work and beginning of shipments from a number of the smaller properties of the state, the outlook is considered bright.

Among the unilsteds, Open is still the star performer, and sales as high as 90 cents were made Friday. The talent is of the opinion that Open is due to go sky-rocketing just as soon as the anticipated ore bodies are encountered, and event which is scheduled to happen in the near future.

Closing quotations and sales Friday follow.

UNLISTED STOCKS.

British and the Nevada Mother Lode in Mining company, has been divided the property in the city Friday, and brought in the Nevada British and the Nevada British and the Nevada British and the Nevada British pare concentrating facilities profitable one centrating facilities profitable one centrating facilities profitable in the near future.

Closing quotations and sales Friday follow.

streak.

The company has a healthy treasury at the present time and, judging by the manner in which the mine is opening up now, it is probable. Mr. Walker states, that a substantial dividend will be paid during the summer. In June or July.

Mother Lode Work

Mother Lode Work.

At the Nevada Mother Lode, a property which in the early days produced millions in wealth, Mr. Walker now has a force of men driving in the tunnel, which is in 956 feet, and which will be continued another 190 feet, or thereabouts, to cut the ore which shows on the surface. The Mother Lode has been worked off and on since 1872, and Mr. Walker is of the epinion that its best days are yet before it.

Mr. Walker left Friday evening for Cherry Creek, where he will remain until his departure. In the near future, for England, where he will go on business connected with his mining interests.

Nevadas in San Francisco.

UTAH CONSOLIDATED MAY PASS DIVIDEND

servative Policy in Future Affairs.

A special over the Pollock wires Friday morning brought the following exnolders of the Utan Consolidated Mining company by Urban H. Broughton, president of the company *

"By reference to the last annual report issued in March, 1909, it will be seen that approximately one-half of the The work of the past few weeks has dicidends declared in the year.

The work of the past few weeks has was out of accumulated surplus. During been confined largely to the retimbering the year of 1969 smelting conditions and the year of 1969 smelting conditions and the price of copper were substantially the same as in 1968. The values of the

foot mark, where the shaft cuts through the ore body, the management has decided to drift both ways on the ore. It is expected that these drifts will soon develop ore in commercial deposits, and with the new equipment recently installed by the company, including a gaso-line hoisting engine, the management is now well prepared to work rapidly and systematically.

It is stated also that from the 300-foot level in the shaft, the lowest point reached in the workings a crosscut to encounter the ore opened above will be run. With the increased working forces and the splendid preparation for operations completed, the Panaca is looked to to develop new resources of worth in the old Chief distret.

The new shaft work planned by the Centennal Plans.

Profits Will Increase.

UTAH COALITION IS. FOLLOWING ITS ORE

Recent Developments in District Give Promise of Big Returns.

Information from the local offices of the effect that development work at the property in Big Cottonwood canyon is going ahead steadily and in an encouraging manner, though as yet the antici-pated ore bodies have not been encountered. The high ore values found in the tunnel about the first of the year still continue as the work in the tunnel procontinue as the work in the tunnel progresses, though the small leaders have not yet developed into deposits of commercial value. It is stated, however, that the tunnel is just now entering the edge of the mineralized area which shows so strong on the surface, so that within the next few days it is probable that developments of interest and importance will result.

opments of interest and importance with result.

Interest in the Cottonwood and Alia mining districts has been greatly stimulated by the active operations being carried on by the Coalition people, the discoveries of new ore bodies in the Columbus Consolidated on the other side of the range having also given encouragement to owners of property in that neighborhood. Improved conditions have also been reported of late from the Cardiff, Rexall and other properties, so that the situation generally is very proming.

Promise of Activity.

Promise of Activity.

The coming summer promises to be one of the great activity in the district, operators having made preparations to continue with the work which was only given a mere start last fall, and by this time next year it is reasonable to suppose that several regular shippers will have been added to the lists in this part of the country. Depth, it is now agreed by mining men familiar with the situations is what is needed to prove up the true possibilities of the district, the theory being that with the additional depth of 800 or 1000 feet, ore bodies more extensive and as rich as any heretofore opened in the Park City or Alta sections will be found.

As the necessity of deep mining is more fully realized operators are arranging for this system of working, and several new companies, together with those already in the field, will probably start work during the early spring months.

NOTICE. Hay and Grain.

To my many friends and customers: I am again in business at 110 West First South, under the heading of C. H. Miller Grain company, and assure the same courteous treatment as in the past.
